

I live in an area with not to many quality radio stations, So I choose to also subscribe to XM Satellite Radio. I enjoy the variety and quality of the content. it makes me feel a little more in tune with the world. I pay for this service and it is not up to the National Association of Broadcasters to determine what i can listen to. Please reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I want to hear.
